Secrets to success

Reinvent yourself with a personality grooming course by an international success coach

Minocher Patel

Sanat Savanal | TNN

PERSONALITY grooming is one of the key elements that contribute to a successful career. While there are many organisations that teach you the best aspects of business, medicine, mass media etc. very few institutes in India are offering quality education in etiquette and personality grooming.

The good news is that Ecole Solitaire, the first residential finishing school and international corporate training consultancy in Pune

is here to give you this opportunity. A pioneer in etiquette and personality grooming, led by Minocher Patel, one of India's leading motivational speakers, corporate trainers and success and image coach of international acclaim. He conducts various soft skills programmes for top corporates in India and abroad, and some of the top educational institutes in the country.

Ecole Solitaire is giving Puneites a rare opportunity with Lasting Impressions — a unique non-residential finishing school programme spread over one month — designed and conducted by Minocher Patel in November. The programme will focus on importance of confidence building, positive attitude, communication skills, etiquette and manners and time management and others. So don't miss this unique opportunity to learn how to think, walk and talk your way to success.

Ecole Solitaire also conducts special one-to-one coaching programmes for industrialists, businessmen, builders and their families. He has trained and coached top CEOs, celebrities from the entertainment industry, politicians and pageant aspirants.
